

# Now you have a **Choice**

## Introducing the new, value-priced **Fix-A-Thred®** Oxygen Sensor Thread Repair kits

Looking for an alternative to the big guys? Check out the Fix-A-Thred® Oxygen Sensor Thread Repair kit...the same kit as the competition's, only value priced so you make more profit.

**Fix-A-Thred® M18 X 1.5 Oxygen Sensor Repair** kits are designed to provide everything needed to permanently restore oxygen sensor exhaust manifold threads in minutes – pilot reamer tool, installation tool, and high-strength stainless steel inserts. Easy to use, with no drilling required for perfect alignment with the newly tapped hole, this new kit offers both premium quality and value pricing.

PN 38189-1
