

A Profitable Alternative

Introducing new Fix-A-Thred® Metric Head Bolt Thread Repair kits

If you are looking for a value-priced alternative for Metric Head Bolt Repair kits, you have come to the right place.

Fix-A-Thred® M11 X 1.5 Metric Head Bolt Repair kits are designed to repair 4.0 and 4.2-liter General Motor® engines, along with many popular import brands, including Honda® and Toyota®. These kits include everything needed to quickly repair stripped head bolt threads – drill bit, steel tap, installation tool, and high-strength stainless steel inserts – all at a price that makes them a very profitable alternative.

PN 35119S Fix-A-Thred M11 X 1.5 Metric Head Bolt Repair Kit Contents:

- High-speed steel tap
- High-speed steel drill bit
- Easy-to-use installation tool
- 12 Fix-A-Thred stainless steel inserts (33mm long for best head bolt fit)
